

ANOTHER SKY CLIMBER REFERENCE !

COUNTRY : SWEDEN

APPLICATION : Maintenance of 35 m high paper mill tower

ACCESS SOLUTION : Together with the local dealer, Sky Climber Europe developed this circular platform with dia. 5.5m. (calculated to make it up to dia 14m) Max load on the platform is 1.600 kg (300kg/m² for the deck). The framework is made of aluminium and fittings are from steel. The deck as showed is made of wood but is available in aluminium too.

Powered : the CE approved platform is electric powered by 4 x Alpha 800 hoists, and operates through 1 central control box.
